

CLEANING PROTOCOLS

Complete with location specific instructions

Step 1

Wear Proper PPE

- List PPE used with this location's cleaning and disinfection products and where they are stored

Step 2

Clean with soap and water first

- Use a damp cloth or wet mop
- List the cleaning product (e.g. which soap) and materials used and where they are stored

Step 3

Use Disinfectant

- Leave disinfectant on surfaces according to product instructions
- Bleach solution: 20 mL (4 teaspoons) bleach in 1 litre (4 cups) of water
- Identify this location's disinfectant, how to properly use, and where it is stored

Tips

- Use a cleaning and disinfection checklist like the [template on CHConnect](#)
- Clean and disinfect twice per day
- Avoid mixing chemicals
- Do not dust or sweep, which can distribute virus droplets into the air
- Wash reusable cleaning items with laundry soap and hot water (60-90°C)
